Section 1: AngelOne – <https://www.angelone.in/stocks/reliance-industries-ltd>

ID	Bug Title	Description	Expected Behavior	Actual Behavior	Severity
A1	Investment option tiles not working	Clicking on “stocks”, “IPO”, “F&O” etc. does not trigger any navigation or action.	Click should open a related page or modal.	No response or link.	Medium
A2	“Email Us” button not working in the Support section.	Clicked on “Email Us” under Support, but nothing happened.	Open default email client or contact form/mail to link.	No response at all.	Medium
A3	“Know More” buttons scroll to form instead of showing product details.	Clicking “Know More” below Stock, Mutual Fund, NFO just scrolls to the top “Get in Touch” form.	Opens a detailed product page or section about the selected investment.	Scrolls to top form without context.	Medium
A4	Rating stars not interactive on hover	Stars don’t respond visually when hovered — feels static.	Stars should highlight on hover to show rating level.	No hover effect.	Low
A5	“Live Blog” in Learn tab shows 500 error	Clicking “Live Blog” under the Learn tab leads to HTTP 500 – internal server error.	Blog content should load normally.	Page shows 500 server errors.	High
A6	Voice/audio playback not working on blog	The audio section on the blog page “How to Create a Portfolio in Share Market” does not play.	Should play article narration.	Audio stuck at 0:00, non-functional.	Medium
A7	NSE/BSE format changes after few seconds in Indices	On navigating to Trade & Invest > Indices, the NSE and BSE options first load as buttons, but within 3–5 seconds, they change to a different format automatically without user interaction.	Format remains consistent (e.g., buttons or cards).	Initial button format shifts after delay.	Medium
A8	Header tabs flicker inconsistently when scrolling in Fundamentals section	On the <b>Reliance Industries page</b> , when navigating to the <b>Fundamentals section</b> , the <b>top tab menu (Trader, Support, Learn, News)</b> flickers repeatedly <b>while</b>	The header should remain static and visible without flickering.	Header flickers on all except “Financials”.	Medium

		<b>scrolling</b> — but <b>only when viewing tabs like “Fundamental”, “Corporate Actions”, “Peer Comparison”, etc..</b> Interestingly, the <b>“Financials” tab does not trigger this issue.</b>			
--	--	---	--	--	--

**Section 2: IndiaInfoline – <https://www.indiainfoline.com/b news>**

ID	Bug Title	Description	Expected Behavior	Actual Behavior	Severity
I1	Email Id Button not working	In the Support section, When i clicked on email id it styled like a clickable element but does not respond when clicked. It only hovers with no further action.	Clicking an email id should open the default mail client or initial a <b>“mailto:”</b> action.	Only hover effect is seen, no redirection or mail action happens.	Medium

**Tools used in QA Assignment:**

WebTesting – Google Chrome

Screen Recording – OBS Studio

Bug Documentation – Google Docs

File Compression – ZIP Tool

Video Upload – Google Drive

Task Submission – KraftPixel Form
